About RopeCamp

Ropecamp is working hard to develop playground equipments which can have space-efficiency and safe play. As user`s demand of safety is upgraded, Ropecamp is producing all products to meet this demand according to international standard safety regulation - **IPEMA, TUV, ASTM, CPSC, CSA.**

TUV are international test and safety certifying companies who provide services including products test and certificate. The safety certificate of TUV prove the tested product`s reliabilty. Ropecamp`s products certified by TUV are tested **by European safety standard EN1176 regulation.** IPEMA stands for International Playground Equipment Manufacturers Association. IPEMA nominated independant test & certificate organizations and through these organizations, it provides the third party certificate service. Also certify that those playground equipments are produced according to ASTM F1487 and CSA Z614.

Ropecamp is working hard to improve product`s safety and quality. Most of our products got TUV already tested and we will get certificate for more products. All our R&D members are consisted of international safety regulation specialists and they understand correctly the contents of safety regulation requested by each continent. This makes all our products are perfectly safe. **All our Ropecamp members always will do our very best to produce safe and useful playgrounds equiments for all our children`s joy and fun.**

Thank you.

RX-Rope

Unrivaled technology, the most secure rope

Ropecamp's engineers have created the safest, most attractive cabling in the playground industries. Using proprietary technology, they've infused the beautiful nylon cable coatings with UV protectants and flame retardant solutions in the extrusion process. They use these vibrant threads to weave a braid around 144 strands of galvanized steel to produce the play structure rope. This unique process keeps the ropes beautiful to see, soft to touch and stronger than any other cabling available.

The vibrant colors will immediately appeal to children of all ages, but the ropes will also feel just as good to touch. who provide services including products test and certificate. A class 8 UV Colorfastness rating keeps the ropes looking new and the special nylon formula and unique weaving of threads means that RX compound ropes are resistant to fading, wearing and fraying for years.

Available colors are Brown, Beige, Blue, Yellow, Red, Green, Black, Brown&Green, Blue&Red, Blue&Yellow, Black&Red Black&Neon green.
