

GREAT PARKS USA

Part 1

1707 Highlands View Drive
Atlanta, GA 30082 USA

About Us

- ❑ Great Parks is a multinational company with over 40 years of Water Parks design & construction experience. With a team of specialized designers, Great Parks can help you make your ideas a reality.
- ❑ With a fiberglass manufacturing plant located in Central America, we can produce many of the most popular water park attractions that make a day at a Great-Parks park a fun and memorable experience. Because we manufacture our own attractions we can help you stay within your budget.
- ❑ If you are looking for a theme for your park look no further. If a Wild West Park is what you want, Great Parks can help you, or maybe you want a pirates theme, or how about some dinosaurs for you park. Great Parks can design you park around several themes. Let us make you theme park come alive.
- ❑ How about rocks, or fountains, or a romantic lagoon with waterfalls and lights, we can add whatever you need to complete you project. Do you need dry attractions, we have them. Wet play grounds , we have them too.
- ❑ With offices in Europe, Central & South America, USA and Puerto Rico Great Parks can support you from Preliminary Drawings to Master Planning to Opening Day.
- ❑ We at Great Parks take great pride in our company and our work. Let our talents and experience make your park a GREAT PARKS.

WHAT DOES GREAT PARKS HAVE TO OFFER?

1. Master Planning-

One of the first steps in park design is the master plan.

2. Pools –

Great Parks is a leader in Freeform and concrete construction pools.

3. Rivers –

Great Parks Rivers are a must for any park in Freeform or concrete construction.

4. Slides –

Great Parks has slides in all shapes and styles For kid and for kids at hart.

5. Freeform Wall System –

Great Parks provides a unique fiberglass wall system that allows a free style to any design. If you can see it in your mind Great Parks can make it come alive

6. Figures or Figurines

Great Parks has them as a display or a slide or a fountain we have the figures to enhance you park.

WHAT DOES GREAT PARKS HAVE TO OFFER?

7. Wave Pools –

Do you want the feel of the ocean but the comfort of a pool? Great Parks can bring the ocean to your park no matter where it is.

8. Kids Pool and Kids Interactive

Great Parks knows kids and we make the best kids pool and interactive pool around.

9. Theme Parks –

Great Parks can turn your park into an adventure. Pirates, Dinosaurs, Birds let us turn your park into a tropical jungle, or a pirates cove, or Jurassic park .

10. Flow Riders

New to flow rider development but not new to the flowing water and wave generating, Great Parks is developing its own form of wave design

11. Kids Dry Land Play Grounds –

At Great Parks we do wet very well but we also do dry play grounds just as well

12. Park Accessories–

At Great Parks we do more than Water

MASTER PLANNING

The First step in the process is the design of your park. This is where we will draw in all the pools and river. We will locate your slides and interactive games. We will also show some general features such as buildings, ticket offices, stores, restaurants or any other feature that will enhance your park.

We will provide this to you in a rough drawing. This will have all the information necessary for you to get a good idea of what your park will be like.

Now it is up to you, You can make suggestions or have us move things around or even delete or add features. From your suggestions we will revise your plan to fit your likes.

This plan will be returned to you for your approval.

Once we have your approval we will complete the Master Plan with all the details in bright colors and Detail to make your plan a presentation.

POOLS

What makes Great Parks pools any different from any other pool in any other park?
We are a leading builder in the construction of both commercial and residential pools.
